Brad Cohen joined [Aspiritech](#) as Chief Marketing Officer after serving 10 years on the Aspiritech Board of Directors and 30 years as a trader at the Chicago Mercantile Exchange and NYMEX. Brad has also been the managing partner of Snippets Mini Cuts since 1999, as well as Surfside Palmas Resorts in Puerto Rico since 2015. Further, Brad has served on several educational boards including District 112 Foundation and Board of the Palmas Academy.

Ann B. Brownell, PhD, Chief Technology Officer, Aspiritech, is a mentor, an educator, and a leader with over 20 years of experience in software development, quality assurance, personnel, and program management. Her background includes a PhD in Educational Processes and work across domains including education, learning, training, and knowledge tracking systems, statistical analysis, data services, property, planning, and document management and more.

"We Can Do QA After Rollout...*Right?*"

Everyone knows software testing and quality assurance (QA) is important. QA helps identify issues and track problems at all project stages. In other words, Quality Assurance helps keep your **customers** from becoming your **testers!**

Yet somehow, we usually realize this shortly after we ship when defect reports start stacking up. Bugs we forgot about. Issues we didn't know about. Potential problems lost between shifting priorities and deadlines. We've all been there.

Join Us and Learn How Quality Assurance Makes Quality Products

Join us as Brad Cohen and Ann Brownell from Aspiritech take us on a deep dive into Quality Assurance for software, hardware and data. Learn how QA translates into earlier acceptance, increased sales, and trust. Trust in your products, your people, and your company.

Our presenters will also discuss how Aspiritech utilizes the strengths and talents of a unique workforce: **100+ QA analysts on the autism spectrum**. Aspiritech analysts combine high standards, superior observational skills, and unparalleled attention to detail to provide exceptional quality. Discover how Aspiritech provides intensive training, structure, and experienced support to help identify and overcome potential workplace challenges to create a rewarding work environment.
