6:00 PM, DECEMBER 7, 2017

BLOCK CHAIN AN INTRODUCTION

Blockchain began as one of the key technologies behind electronic currencies like Bitcoin and Ethereum.

At its core, a blockchain is a simple concept. A blockchain is a distributed ledger, a registry of assets and linked transactions on a peer-to-peer network.

What gives the blockchain its extraordinary power is the incorporation of strong cryptography. The result is an encrypted, **unalterable, unforgeable record of every account transaction...everywhere on the network.**

As a result, blockchain is promising to revolutionize everything from banking to healthcare to the very essence of our online interactions: identification, accountability, and public trust.

This discussion will provide a solid introduction to the core concepts of blockchain. Furthermore, we will explore why blockchain is being hailed by many as one of the most significant technology advances since the web began.

Get Linked. Join us at Mid-America Club IT Connect at **6:00 pm** on **December 7, 2017**. Enjoy a presentation from a thought-leader in tech and our spirited Q&A afterwards!

Speaker: Artur Oganezov, JLL

MID-AMERICA CLUB IT CONNECT MEETINGS

Our next meeting will be **December 7, 2017 at 6:00 pm** in the Mid-America Club on the 80th floor of the Aon building in downtown Chicago. Please RSVP with the Club at **312-861-1100** or online at **midamclub.com**. Limit **3 guests** per membership. Members must register their guests with the Membership Department.

Mid-America Club IT Connect is presented by **Polymorphic Systems, Inc.**
