INTELLIGENT AUTOMATION

TRANSFORMING TOMORROW

Welcome to the new industrial revolution.

A revolution driven by *intelligent automation*, a combination of artificial intelligence with robotics and autonomic systems.

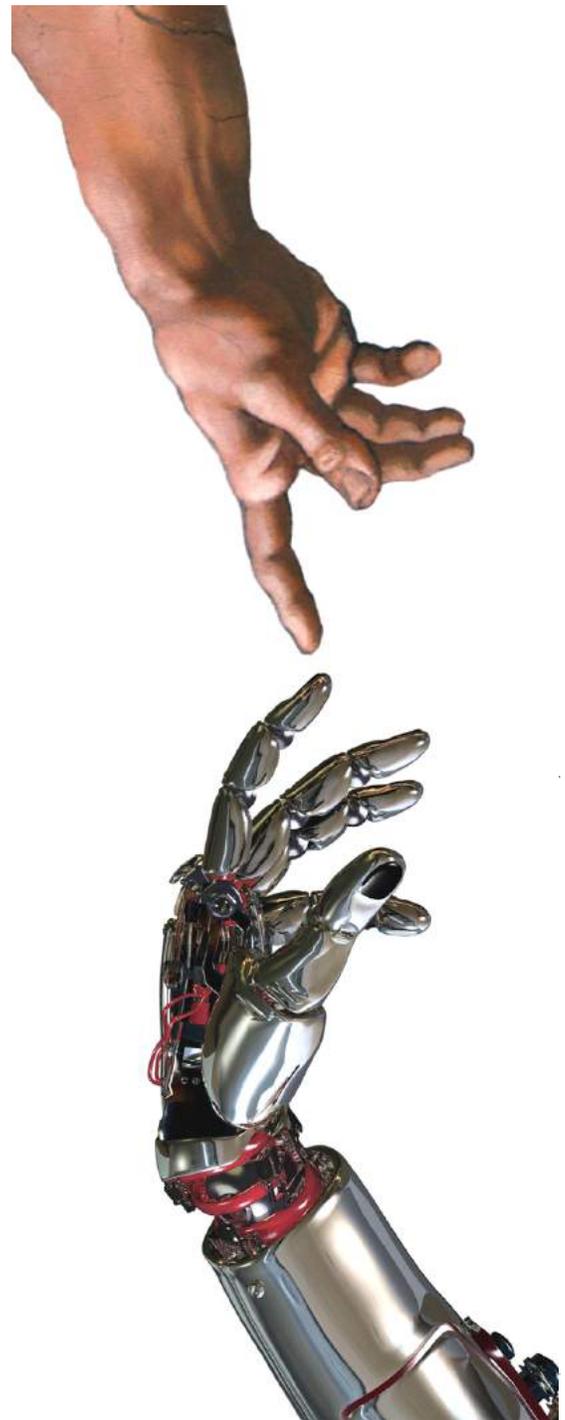

Intelligent automation is reshaping the enterprise landscape by combining traditional automation with systems of smart, flexible software agents.

These systems can not only understand core business processes, but they are also able to make decisions, handle exceptions, and work cooperatively. This smart, sophisticated automation is capable of optimizing and validating hundreds of thousands of end-to-end process steps based upon real-time feedback.

In this session, we will discuss the fundamentals of intelligent automation and how both business and consumers are evolving in response. We will also include an overview of products currently on the market, and a glimpse of things to come!

Get Smart. Join us at Mid-America Club IT Connect at **6:00 pm** on **January 18, 2018**. Enjoy a presentation from a thought-leader in tech and our spirited Q&A!

Speaker: Tareq Ayub, Avonet Technologies

MID-AMERICA CLUB IT CONNECT MEETINGS

Our next meeting will be **January 18, 2018** at **6:00 pm** in the Mid-America Club on the 80th floor of the Aon building in downtown Chicago. Please RSVP with the Club at **312-861-1100** or online at **midamclub.com**. Limit **3 guests** per membership. Members must register their guests with the Membership Department.

Mid-America Club IT Connect is presented by **Polymorphic Systems, Inc.**
