IN CLOUD WE TRUST
Finding a Trustworthy Cloud Services Provider

Increasingly, companies are using cloud computing solutions like Microsoft Office 365 and Microsoft Azure to help reduce their costs, be more collaborative and achieve more. However, we are constantly reading about high-profile data loss incidents involving organizations across all industries.

More than ever before cybersecurity concerns are a top-of-mind issue for all senior leaders. We are also seeing new data privacy laws being enacted across the globe. In addition, there are many cloud services providers to choose from as the cloud computing marketplace continues to grow.

In our mobile-first and cloud-first world where data is so valuable, companies are only going to use technology they can trust. As a result, it is critically important to conduct thoughtful due diligence when selecting a potential cloud services provider.

In this session, we'll explore some strategies and best practices for identifying and contracting with a cloud services provider.

Get Trusted. Join us at Mid-America Club IT Connect on November 10, 2016. Enjoy a presentation from a thought-leader in tech and our spirited Q&A afterwards!

Speaker: Dennis Garcia, Assistant General Counsel, Microsoft Corporation

MID-AMERICA CLUB IT CONNECT MEETINGS
